LAL Solutions

Who Are We?

'LAL SOLUTIONS' is a division of the Lebanese Alternative Learning (LAL), an ed-tech Non-Governmental Organization.

We draw on LAL's years of experience creating 'TABSHOURA', the ubiquitous e-learning platform serving the Lebanese school system and 'LALMOUDARESS' initiative, a library of resources dedicated to support educators in the shift to distance education.

Our Expertise

Our clients can rely on the full spectrum of capacity building and digitalization services to be done in-house. This includes instructional design, digital development, audio-recording and editing, animations and illustrations, multi-language subject matter experts, video creation and much more.

What We Offer?

Our value added services are centered around Co-Creation and Capacity Building Workshops.

Co-Creation

Co-Creation is the process of both developing and deploying a client's content. This process leads to a transformative and interactive digital learning experience. Our team works hand in hand with our clients to ensure that their requirements and needs are met.

Development
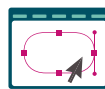

LAL

Clients

- Needs Assessment

- Instructional Design

- Digital Conversion
  - Content Creation
  - Audio Editing
 - Visuals

- Quality Control

Deployment

- We offer both cloud and offline services

Capacity Building Workshops

The Capacity Building Workshops enhance education actors' (educators, facilitators, supporting staff, management teams) self-development and skills.
A wide variety of topics are provided in an interactive, engaging, and hands-on methodology to impact the learners' journey within a fast changing education sector.
